

Advanced ERCP Course

PROUDLY BY YOUR SIDE

Fujifilm Medwork, Höchststadt, Germany
11th-12th December, 2025

The Advanced ERCP Course offers a unique training opportunity for endoscopists who already perform ERCP to enhance their skills by learning the knowledge and techniques required to manage complex ERCP cases from international KOLs.

This comprehensive program combines structured theoretical sessions, case presentations, interactive discussions, and intensive hands-on practice to guide participants through the management of challenging ERCP scenarios.

Key topics include difficult cannulation, advanced stone management, challenging stricture management and effective drainage techniques, along with strategies for addressing complications. Case presentations and discussions will provide opportunities to learn from real-world scenarios, while dedicated hands-on sessions on high-fidelity ex-vivo models will allow participants to practice these techniques in depth.

This program is designed to deliver a dynamic and practical approach to mastering advanced ERCP, fostering proficiency and confidence in handling even the most complex cases.

LEARNING OBJECTIVES

This course is designed to advance participants' expertise in ERCP and provide comprehensive training in managing complex cases and therapeutic interventions. The key objectives include:

- Reviewing current guidelines, techniques, and theoretical foundations related to complex ERCP procedures
- Learning approaches and technical strategies for managing difficult real-world ERCP cases through in-depth discussions with international KOLs
- Developing advanced ERCP skills through hands-on training in small groups led by international KOLs
- Learning complication management strategies to confidently address adverse situations and ensure optimal patient outcomes.
- Engaging in case-based discussions to enhance clinical decision-making skills and apply theoretical knowledge to real-world scenarios.

DELEGATE SELECTION CRITERIA

This training program is specifically designed for medical professionals looking to advance their technical skills and procedural expertise in the field of Endoscopic Retrograde Cholangiopancreatography (ERCP).

PARTICIPATION REQUIREMENTS

To ensure the most effective learning experience, participants should meet the following criteria:

- Physicians who have performed a minimum of 100 ERCP procedures.

This requirement ensures that all participants have the foundational experience necessary to fully benefit from the program's advanced-level training.

COURSE LOCATION

FUJIFILM MEDWORK, HÖCHSTADT, GERMANY

COURSE FEE

The course fee is €500. It includes accommodation for two nights, as well as lunches and dinners.

FACULTY

Dr. Srisha Hebbar, FRCP,
University Hospitals of North
Midlands, United Kingdom

FACULTY

Prof. Dr. Arne Kandulski,
Clinic and Polyclinic for Internal
Medicine I, University Hospital
Regensburg, Germany

FACULTY

Dr. Cecilia Binda, M.D.,
Gastroenterology and
Digestive Endoscopy Unit,
Forlì-Cesena Hospitals, AUSL
Romagna, Italy

FACULTY

Dr. Carme Loras Alastruey,
Head of the Gastroenterology
Department, Hospital
Universitari Mútua Terrassa,
Catalonia, Spain

PROGRAMME | 11 - 12 DECEMBER 2025

DAY 1: THURSDAY

9:00 - 9:30	Welcome & Introduction
9:30 - 9:50	Introduction Advanced ERCP
9:50 - 10:30	Difficult Access
10:30 - 10:45	Coffee Break
10:45 - 11:30	Case presentation & Discussion: Difficult Access
11:30 - 13:00	Practical Training: Hands-on 1
13:00 - 14:00	Lunch
14:00 - 14:30	Difficult Stone Management
14:30 - 15:15	Case presentation & Discussion: Difficult Stone Management
15:15 - 15:30	Coffee Break
15:30 - 17:00	Practical Training: Hands-on 2
17:00 - 17:15	Closing Remarks and End of First Day
19:00 - 21:00	Course Dinner

DAY 2: FRIDAY

9:00 - 9:45	Difficult Stricture and Drainage
9:45 - 10:30	Case Presentation & Discussion: Difficult Stricture and Drainage
10:30 - 10:45	Coffee Break
10:45 - 11:45	Practical Training: Hands-on 3
11:45 - 12:15	Complications Management
12:15 - 13:00	Case presentation & Discussion: Complication Management
13:00 - 14:00	Lunch
14:00 - 15:00	Practical Training: Hands-on 4
15:00 - 15:20	Closing Remarks and Feedback Collection
15:20	Course closure and farewell
