Hospital Solutions SCA Catalog Sep 2021

Passionate partner, solid solutions.

A passion for medical technology and ensuring the availability of optimal total solutions in all circumstances. As a partner for hospitals and medical professionals, we only want what is best for both staff and patients.

We offer:

Complete range of solutions

Specialized portfolio of medical and software products

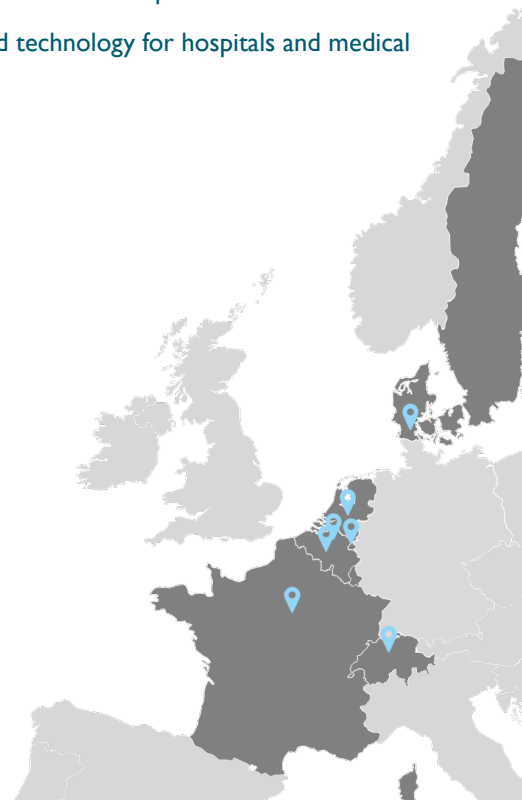

Unique service and tailor-made training throughout the lifecycle

Our mission

Bringing high-quality products, services & innovations to the healthcare community

The Duomed Group

The Duomed Group is a dynamic organization with a well-established reputation present in 7 European countries and active in consultancy, sales, integration, training and technical support of medical devices and technology for hospitals and medical practices. is part of the Duomed Group.

About this catalog

We are pleased with your interest in the consumables and accessories of Duomed.

This catalogue of the Subacute, Consumables & Accessories division (SCA) of Duomed represents a broad selection of our portfolio for healthcare professionals dedicated to improving patient health and saving lives.

All consumables and accessories were selected with great care to meet the highest standards of quality and patient safety. Duomed has long-term partnerships with reliable suppliers from all over the world and is constantly looking for new suppliers to expand and optimise its product portfolio to accommodate the needs of our customers.

This catalogue is organized in 8 care areas: ventilation, monitoring, vital signs monitoring (VSM), thermoregulation, suction and oxygen therapy (SOT), pulmonary function testing (PFT) and infusion. Easily navigate in this interactive pdf to each of these care areas from the responsive sidebar on the right or from the table of contents (ToC).

Only a selection of our broad portfolio is shown in this catalog. Please do not hesitate to contact us if you do not find what you are looking for.
